More Victories: Texas & Nebraska

DEAD, but 2017 COS application remains in effect until 5/10/25

TEXAS	SJR 52; (SJR 35, HJR 36)	Extends (or removes) COS 8-year sunset on all future Texas applications.	DIED 5/23/2023	All dead for 2023 Regular session. SJR 52 passed the Senate. It then missed the deadline for all Senate bills to pass the House. "Postponed until 8/18/23" means it's dead, since the date is beyond sine die (5/23/23). It can be taken up in a special session, only if the subject matter is germane to the call (unlikely)—but it would have to start over. Texas doesn't meet in 2024. COS will have one last chance in 2025 to extend or remove the sunset, as the COS application doesn't expire until 5-10-2025.

DEAD, but COS 2022 Application remains in effect until 2/1/27

NEBRASKA	LR 31 (COS)	New Application removing 5-yr. sunset.	DEAD	After trading repeated votes, suspending rules, and adding a 5-year sunset to hand COS a victory in 2022, Sen. Halloran introduced another COS application in 2023—but with the sunset removed—less than one year after passage!
